iSIGHT Partners Releases Threat Intelligence Feed on the Archer Exchange

New offering enables Archer's Fortune 1000 clients to more rapidly identify, analyze and respond to threats that impact their business

Dallas, TX Nov. 12, 2008 – iSIGHT Partners, the global risk mitigation company that helps customers manage human, electronic and physical threats, today announced the release of their IntelliSIGHT content offering on the Archer Exchange, an online marketplace from Archer Technologies dedicated to supporting governance, risk and compliance initiatives. Through this offering, Archer's growing Fortune 1000 client base can rapidly integrate iSIGHT Partners' analysis of new vulnerabilities, exploits and malicious code activity with the Archer Threat Management solution, enabling faster response to threats and reduced business impact.

"By delivering a pre-built integration package that our customers can download from the Exchange, iSIGHT has made it incredibly simple for our customers to take advantage of IntelliSIGHT reports to power threat analysis and response within Archer," said Jon Darbyshire, president and CEO of Archer Technologies.

iSIGHT Partners' Exchange offering focuses on vulnerabilities, exploits and malicious code activity that have strategic and operational impact to enterprise customers. IntelliSIGHT reports include deep analysis and mitigation strategies relating to proprietary and known vulnerabilities, malware and emerging threats. By integrating this data with the Archer Threat Management solution, organizations will have an effective early warning system for responding to threats and preventing costly attacks.

"The release of our IntelliSIGHT integration on the Archer Exchange continues iSIGHT Partners' delivery of the most robust and compelling collection of solutions for enterprises to manage risks to their critical assets," said John Watters, chairman and CEO of iSIGHT Partners.

More information on iSIGHT Partners' offering on the Archer Exchange is available at <https://exchange.archer-tech.com/offering/2173.aspx>.

About iSIGHT Partners

iSIGHT Partners is the global risk mitigation firm providing threat intelligence-fused products and solution sets in protection of targeted assets such as sensitive data, intellectual property and facilities in high-risk areas. The company's products, solution sets and global intelligence experts ensure an integrated approach to risk identification and mitigation across cyber and physical assets, managing real-world risk beyond the edge of customers' own resources and physical boundaries. For more information, visit www.isightpartners.com or call 866.586.4572.

About Archer Technologies

Archer Technologies delivers enterprise governance, risk and compliance (E-GRC) solutions. With more than six million licensed users and a client list that includes one in four of the Fortune 100, Archer enables highly regulated companies to reduce enterprise risks, manage and demonstrate compliance, automate business processes, and gain visibility into corporate risk and security controls.

All Archer solutions are built on the highly flexible Archer SmartSuite Framework, allowing clients to tailor the solutions according to their unique requirements and to build new on-demand applications to expand their E-GRC program. As a result, many of Archer's clients consider the Framework their go-to platform for rapid application development.

Archer clients maximize their use of the Framework through the Archer Exchange, an online marketplace of applications, services, content and integration solutions, and the Archer Community, an online social network of discussion forums, product ideas, downloads and resources. Through this supporting Archer ecosystem, clients have the tools and services they need to build a best-in-class E-GRC program. For more information, visit www.archer-tech.com.
